

Computer Requirements

- Laptop/Desktop PC (**Macs currently not supported under any configuration**) with Intel Pentium (Centrino or Pentium 4) processor of 1.5 GHz or higher (or equivalent)
- Microsoft Windows XP English Language OS w/ (service pack 2 or greater).
 - 32 bit or 64 bit now supported in version 4.1 and higher!
 - 1024 MB (1 GB) of RAM or greater
- Microsoft Windows Vista English Language OS w/ (service pack 1 or greater)
 - 32 bit or 64 bit now supported in version 4.1 and higher!
 - 2048 MB (2 GB) of RAM or greater
- Microsoft Windows 7 English Language OS
 - 32 bit or 64 bit now supported in version 4.1 and higher!
 - 2048 MB (2 GB) of RAM or greater
- Dedicated (non-integrated) video graphics accelerator processor
 - Windows XP: Minimum required 128MB video RAM (256+ recommended)
 - Windows Vista and Windows 7: Minimum required 256MB video RAM (512+ recommended)
 - Intel Integrated chipsets **do not** meet this requirement (ex: Intel GMA)
 - If the manufacturer is NVIDIA or ATI you most likely meet the spec.
 - Video card should have "Integrated DAC", if you are not sure, call us for help confirming this or ask the manufacturer/sales person.
- 60GB hard drive or larger
- 2 or more USB 2.0 ports
- 1 or more Internal IEEE 1394 Firewire port or an external PCMCIA card for Firewire
- A display capable of a minimum resolution of 1024x768
- Camera:
 - Digital Camcorder Mini DV
 - Minimum of 30 FPS
 - Manual shutter speeds up to 1500/1800
 - Firewire (DV out) ports. (Make sure port is not behind battery; otherwise you won't be able to run off of the battery while camera is plugged in.)

K-Motion Interactive currently only recommends and supports PC computers with the K-VEST system. Mac computers **are not** supported currently under any configuration. If you have any questions or would like to have K-Motion Interactive check your computer specifications please call us at (603) 472-3519 Ext. 4015.
